

Special Newborn Care Units (SNCU)

These services are available in major Government hospitals which are functioning with the following objectives to increase the infrastructural facility and access of essential care to neonates at all levels.

- To increase availability of quality neonatal services in Hospitals.
- To ensure 48 hours stay of delivered mother in the Government Hospital, to take care of the neonate appropriately and also to educate and counsel the mother in child care services.
- To make the mother identify the early warning signs and symptoms in the neonate.
- To promote exclusive breastfeeding up to 6 months and introduce complementary feeding at 6 months of age.
- To enhance institutional immunization coverage of children and antenatal women.

Strategies

- Establishment of New born care corner in the labour ward of at the District and Sub district hospitals for new born resuscitation and early neonatal care.
- Establishment of Special Newborn care unit in the identified CEmONC centers in phased manner.
- Establishment of New Born Stabilisation Units in the sub district hospitals and level II MCH centers to decrease the case load at SNCUs.

- Strengthening of immunization programme to achieve 100% fully immunized status.
- Ensuring systematic supply of Vit A and pediatric IFA tablets to strengthen these distribution programmes.
- Using BCC strategies effectively to achieve breastfeeding within one hour and to promote exclusive breastfeeding
